

Do you want  
your own Nuclear  
Laboratory?

How about your  
own ready-to-run  
Ultrasound Lab?

Our programs require  
no money down or  
out of pocket expenses!

## In-office Nuclear Stress Test Plans

- UNDSmartLab™ (Existing Nuclear Lab Optimization)
- UNDComplete™ - Nuclear (All Inclusive Ready-To-Run Nuclear Lab)

## In-office Ultrasound Plans

- UNDComplete™ - Ultrasound (All Inclusive Ready-To-Run Ultrasound Lab)

**UND**  
provides affordable,  
on premises, complete diagnostic  
solutions to hospitals and physicians  
with service that exceeds  
expectations.

### Existing Nuclear Lab Optimization

#### UNDSmartLab™

If you are already operating your own nuclear laboratory and want to rest assured that your operating at the most economical and highest level of overall efficiency, then the UNDSmartLab™ plan is perfect for you.

We can relieve you from the daily operations and headaches of running your laboratory, or simply find more efficient ways to optimize your department.

This unique plan is one of a kind in the industry - **GUARANTEED!**

### All Inclusive Ready-To-Run Ultrasound Lab

#### UNDComplete™ - Ultrasound

Have your own in-office ultrasound lab without expensive start up and set up costs.

We have attractive programs that allow you to get started without the initial difficulty in licensing, purchasing, certification, staffing, and managing of an ultrasound laboratory.

All UND ultrasound equipment is brand new and come with extended warranty parts and labor.

### All-Inclusive Ready-To-Run Nuclear Lab

#### UNDComplete™ - Nuclear

You wish to offer patients in-office nuclear stress tests in order to improve patient satisfaction and increase earnings. This plan uses brand name (GE, Siemens, etc.) new and certified pre-owned nuclear cameras with updated software pleasing to all of our discerning nuclear reading cardiologists' standards.

When you want to start providing diagnostic services in your practice, UND will assist you in all the phases in lab setup and make it run efficiently from day one. If you ever wanted to perform nuclear cardiology in your practice but hesitated this is your answer.

## Annual Profit

"I never thought I could afford to set up a Nuclear program in my practice. University Nuclear & Diagnostics showed me that I could not afford to practice without it." **Solo Physician, Pembroke Pine, FL**

## About Us

We are a national company based out of Florida offering complete diagnostic solutions which allow physicians to provide high quality imaging services in the comfort and convenience of their own offices.

In business since 2001, we have satisfied physician-clients across the USA.

Through economies of scale and operational efficiencies, we reduce a practice's breakeven point to 2 patients per week making nuclear medicine affordable - even for solo practitioners.

**We make diagnostics simple, affordable and profitable!**

They are YOUR patients. Why send them elsewhere when you can provide the healthcare that they need... and get paid for it?

- ✓ **Increase** patient retention and patient acquisition
- ✓ **Retain** revenues associated with your patients
- ✓ **Provide** better healthcare, in your office
